STAIETECH LLP

What are the benefits of using a digital kiosk display?

Digital signage displays give your graphics a high quality, high impact appearance, with appealing brightness and colour. With its sleek, slimline design and optional branding, this unit makes an attractive addition to any business. With its four tiered leaflet holder, this digital display totem offers the latest digital advertising technology with a traditional brochure holder. This creates an interactive digital advertising display that will encourage customers to browse your literature and come back for more.

Where should I use my freestanding digital signage displays?

This digital kiosk display is suitable for 24/7 use and ideal for locations such as department stores, reception areas, lobbies, showrooms and exhibitions. They are a fantastic way to promote products and services, welcome visitors and display useful information or branding and promotional graphics.

STAIETECH LLP

What can I display on this Freestanding Digital Signage with Brochure Holder?

This HD freestanding digital advertising screen is 24" and single sided. It can display videos, images and audio, or even both at once using its split screen function. Once you have created your content and saved it to a USB stick, simply insert the USB and use the supplied remote to select what you wish to display. These freestanding digital signage displays also allow you to set your presentations to a continuous loop, or set a timer so that they only display when required.

Do you have alternative types of digital advertising screen?

We supply premium quality digital signage in wall mounted and freestanding varieties. The design of this unit complements our Digital Display Totem and Wall Mounted Digital Advertising Screen, which are available in different colours and screen sizes, allowing you to incorporate different types of digital advertising around your business with a cohesive aesthetic.
